Newsletter — August 2024 Issue

Big Announcement

This month we have some very exciting news! As you may know, one of our great joys, aside from neurodevelopmental evaluations, is sharing information with the community through trainings and workshops.

You may also be aware that, historically, providers on the Western Slope have had to travel to Denver or Salt Lake City to obtain professional development hours — expensive and time-consuming efforts! And while virtual coursework helps alleviate cost and travel, many of us crave the personal care and connection of in-person experiences, as well as a focus on local issues and realities.

With this in mind, we are thrilled to announce a new initiative for delivering professional development and workshop retreats right here on the Western Slope:

The IM Learning Institute **Professional Development & Workshop Retreats**

- Hosting continuing education units (CEUs) and professional development hours (PDHs) opportunities across western Colorado.
- Tapping into the deep wellspring of experts who live and work on the Western Slope.

- Creating meaningful and enjoyable learning experiences that integrate local values and realities.
